OLD CASE DECIDED

Judge Dale Yesterday Gave
Decision in Suit 24 Years Old.

BEGAN IN MAY 1879

Was Action Brought to Re-
cover \$948.50 from G. Ross.

Judge Dale yesterday rendered a decision in the case of Denny vs. Ross, which has been in the district court of Sedgewick county for nearly a quarter of a century. The case is ended unless the plaintiffs choose to appeal it to the supreme court.

The case was first filed in the district court May 19, 1879, and originally was entitled Tenny vs. Ross. This case involved a transaction of \$948.50, which Daniel K. Tenny claimed was due him from George Ross from a real estate deal. Four years ago the suit which has just been decided was filed and it asked for that sum with interest at 10 per cent per annum, and the costs in the case, which together would amount to nearly four times the amount of the original claim.

The case was tried in 1879 and a judgment against Mr. Ross entered but the execution issued were returned without property. According to the statute of limitations a judgment becomes void after five years unless new executions are issued. New executions were issued as the five years expired until 1887, when Daniel K. Tenny sold the judgment to W. F. Denny. Mr. Ross claims that soon after this sale he paid the judgment, but the records were never cleared up owing to a squabble of the attorneys regarding the ownership of the judgment.

In the early 90's half a dozen attorneys of this city had a suit against each other and both parties to the original suit, but the attorneys were put out of the case on a cross petition of Mr. Ross. During this time the judgment became dormant in that no new executions were issued.

According to the statute of limitations when a judgment becomes dormant the man in whose favor the judgment is drawn can bring an action to revive the judgment. But this action must be commenced and an action of revival issued before the expiration of one year after the judgment became dormant. This order was never issued and it was to have such an order issued that the case was brought four years ago which was decided yesterday by Judge Dale.

In December, 1889, the attorneys for W. F. Denny filed a petition in the district court to revive the old judgment, and this case has occupied the attention of Judge Dale since that time, but more particularly during the last year when it has been brought to his attention quite often.

J. P. Campbell was the attorney for the plaintiff and Adams & Adams for the defendant. The court records comprise a big armload of papers, mostly briefs of argument. The case has been submitted on briefs and oral arguments. The attorneys cited law and made arguments and the other side cited law and argued and asked for a continuance to get more law citations. This kept up for months, one side having the best of the argument for a time and then the others securing new opinions and decisions in their favor. This has kept up and the case has occupied the attention of the court on more days than any other case pending.

Yesterday Judge Dale delivered his opinion on the demurrer of the defendant, Ross, by his attorneys, Adams & Adams, in which he held that in an action to revive a judgment the order of revival must be made within a year after the judgment becomes dormant and could not be made thereafter without the consent of the defendant.

Thus one of the oldest cases on the district court record has been closed as far as this court is concerned unless the supreme court should reverse the decision and send it back for another trial. The case in the case have multiplied until they almost equal the amount of the claim.

Nearly every lawyer of note who has practiced in the Sedgewick county district court within the past twenty-five years has had a hand in this case at some time or other. W. W. Guthrie, Stanley & Hume, Poustou & Boone, Judge Stratton, Judge Ruggles and several others have argued the case before different judges before the case just decided was filed.

Call up the Holland Water Co. Both phones. "Hard Water Kills."

IS ACTING TRAIN MASTER.

Robert E. Dowell Gets Position on
Panhandle.

Superintendent T. J. Whinnand at Wellington issued an order yesterday morning appointing Robert E. Dowell acting trainmaster of the Panhandle division of the Santa Fe, effective at once. Mr. Dowell will enter upon the discharge of his new duties at once. It is generally understood that, while this appointment is only temporary, he will be permanently appointed to the position in the near future.

"Bob" Dowell was formerly a Rock Island conductor, but has been with the Santa Fe for six or seven years. For the past month or two he has had the Englewood run out of Wichita and has been living here.

The appointment of Dowell will give as general satisfaction as any that could have been made.

CORN NOT HURT.

Rain Will Make Good Crop if It Comes
Soon.

C. P. Follington returned yesterday from a trip to southwestern Kansas and Oklahoma. He says that the corn around Kiowa is the best he has seen this year and that it has not been hurt by the dry weather. Between Kiowa and Wichita the corn will not average so high, but some fields are fine. The corn that was planted early was frost bitten and was hurt by water standing on it. It is stunted in growth, but that which was replanted or planted late is in fine shape. He thinks that none of the corn has been hurt much by the hot weather and that if it rains soon the corn will turn out all right.

OUT FOR GOOD TIME.

Wichita Young Men Camping on Fall
River This Week.

Three young men from this city, Charles Russell, Will Smythe and Clyde Young, are camping on the R. H. Carlson place on Fall river this week. They are there

for a good time, and from reports, they are having it. The first dash out of the box Mr. Young leaped up against a tree and set fire to a box of matches which were loose in his trousers' pocket. He had to jump into the river to put out the fire. It is a little late for good fishing, but the mosquitoes are said to be biting pretty good at this season and the boys are probably having a warm time.

BOWLING CONTEST TONIGHT.

Woodward and Vencedora Teams Play
on Vencedora Alleys.

At 9 o'clock this morning the Woodward bowling team will arrive in this city to play a return tournament with the Vencedora team on their own alleys. The Woodward men recently took the Wichita bowlers into camp at Woodward, but it was only forty miles in the entire fifteen games. Each team is composed of three men, who will bowl five games each. The Oklahoma men are Waterhouse, Bosinger and Hargrove, and the Vencedora team are Elmhurst, Qualey and Leighton. The games will be called at 9 o'clock in the evening, and ladies will be admitted free.

HAS MILLIONAIRE HERD.

Floto Shows Have Three Beautiful
Arabian Stallions.

Perhaps the most expensive and interesting feature ever carried by a tented organization is the Floto Shows united magnificent herd of Arabian stallions, imported directly from the stables of the sultan of Morocco. They are the envy of the circus world; the acme of equine grace and beauty. The management points with admirable pride to the fact that this is the first appearance in America of a genuine herd of the famous whirlwind steeds of the desert. They will be seen daily with the Great Floto Shows, in the most beautiful horse act the world has ever seen, designed and trained for this organization by Mr. D. G. Markle. If you are a lover of horses, pay a visit to the Floto Shows and see these kings of the horse world when the show pitches its tents at the corner of Topeka avenue and Fourteenth street next Monday and Tuesday.

A FACT PROVEN

Should Convince Even the Most Skep-
tical of Its Truth.

If there is the slightest doubt in the minds of any that Dandruff germs do not exist, their belief is compelled by the fact that a rabbit inoculated with the germs became bald in six weeks' time.

It must be apparent to any person, therefore, that the only prevention of baldness is the destruction of the germ—which act is successfully accomplished in one hundred per cent of cases by the application of Newbro's Herpicide.

Dandruff is caused by the same germ which causes baldness and can be prevented with the same remedy—Newbro's Herpicide.

Accept no substitute. "Destroy the cause you remove the effect."

Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich. Moore Drug Co., special agents.

TWO THEFTS REPORTED.

Two Bags of Goods and Two Iron
Wheels Were Stolen.

Yesterday morning a pedler reported to the police station that he had purchased a considerable quantity of goods at the S. & M. fire sale, and not having his valises ready just at that time, put the goods into gunny-sacks and placed them in a barn just south of the Crawford opera house. Yesterday morning when he went to get his goods and place them in a saleable condition he found them missing. One of the officers found about one-third of the goods secreted in the Santa Fe yards, but the balance has not been found.

Sometime yesterday afternoon two iron cultivator wheels were missed from the Wallace implement warehouse on South Lawrence avenue. The wheels are worth three or four dollars each. The police have failed to locate them.

IS HAVING PLEASANT TIME.

Mrs. R. A. Skinner in Baltimore Dur-
ing Elks' Conclave.

Dr. and Mrs. A. W. Whitlock received a letter from Mrs. R. A. Skinner, of this city, who is at present in Baltimore, her old home, visiting among relatives and friends whom she had not seen for twenty years. Mrs. Skinner left here about two months ago for Palestine, Texas, where she met her daughter, Mrs. Sylvia Vaughan, who accompanied her from there, and they have visited in Savannah, Ga., from which place they went by steamer to Baltimore. Mrs. Skinner reports a most enjoyable trip and does not expect to return to Wichita before September 1. The Elks are in session in Baltimore, and the city did itself proud in the matter of decoration and entertainment. About 40,000 visiting Elks were in the city during the convention.

Mrs. J. S. Trumbull stopped off in the city yesterday on her way home from a two weeks' trip in Colorado. Her home is at Viola, Kan.

WORK COMMENCED

Graders Began Throwing Dirt
on Nebraska, Kans. and Gult.

FORCE OF MEN AND TEAMS

With Three Steam Graders
Are at Work Near Salina.

Yesterday a notice was received in this city that the Nebraska, Kansas and Gulf Railroad company had commenced construction work on the line just north of Salina. Mr. C. C. Hawley is the superintendent of the construction work and has two hundred men and teams with three steam graders at work on the line.

The announcement that the company had commenced work was good news to the Wichita people interested in building the line. It is now assured that the road will be built, and within the prescribed time. The company in its proposition has stated that they would have the line finished from Concordia to fifty miles south of the Kansas state line by January 1, 1906, and the company has started work early to be able to do this.

The company has had some trouble about getting their line through McPherson county, and also in Harvey county, as two sections wanted the road and were fighting the other half of the county. This has been settled in McPherson county and the petitions to call a special election are being circulated and the call will be issued at the first meeting in August of the county commissioners.

The solicitors will begin work in this county early next month securing signatures to the petitions calling for the special election to vote bonds for the railroad, and also in the city where the company's principal shops are to be located. There has been some delay on account of the company's backers in New York being worried by the sudden drop of money in the market.

It was announced here yesterday that the company's corps of surveyors would begin work in Harvey county within the next ten days and would push the work rapidly toward Wichita and thence to the Indian territory.

RIDING ON SIDEWALK.

Six Wichitans Paid One Dollar Each
Into Police Fund.

The police yesterday were notified that young men were wearing out some of the sidewalks on Waco avenue by using them too freely with their wheels, so an officer in plain clothes was ordered to visit that section of the city and verify the report. The officer did, and brought back six wheels of men who tried to deny it, and took to the sidewalks. The following have the honor of having their names perpetuated on the police blotter:

S. C. Buntin, W. H. Comanghy, J. C. Mechin, N. Phillips, J. C. Erwin, T. P. Page.

Opposite each name is a dollar mark which shows the amount each man paid for the privilege of riding on the walk and getting caught.

HENRY SCHWERDFERGER DEAD.

Will Be Buried From German Lutheran
Church Today.

Henry Schwerdfeger, one of Wichita's old residents passed away at his home, 26 South Water street Friday afternoon at 1:40 o'clock.

Mr. Schwerdfeger was a well known and highly respected citizen and has made his home in this city since the year of 1858. He has been confined to his bed a month, but has been ill for some time past.

His many friends will be grieved to hear of his death. The funeral service will take place from the German Lutheran church on South Market street at 2 o'clock this afternoon. The remains will be buried in Highland cemetery.

Scott Wenne was returned from a week's outing in Colorado.

INSTITUTE CLOSING TODAY.

Sedgewick County the Banner County
of the State.

With today's work the normal institute closes for the year. It has been a successful session in every way. The interest taken by both new and old teachers has been exceptional and the enrollment has been larger than ever before. The total enrollment up to last night was 216, making this county the banner county in the state. Butler county was next highest, with 200 enrolled. The institute will close this afternoon with appropriate exercises.

M. L. Klock of Pennsylvania came in from Larned yesterday to visit W. C. Edwards, one of his old Pennsylvania boyhood friends. Mr. Klock has been making a tour through the west. He has visited all of the points of interest in Colorado and has spent the last three weeks visiting relatives at Larned. He was there during harvest, which was especially interesting to him, as this is his first visit to the great wheat belt.
